## **Lcd Troubleshooting Guide**

Troubleshooting LCD flat panel TV. This is the basic guide that can be applied to most LCD flat panel TV. First, try unplugging it from the outlet for about an hour to see if the TV will reset itself since the minute the TV is plugged into the wall, the power supply and processor will be running 24/7 and the EPROM can get corrupted by spikes and surges.

## **Problems With LCD Monitors**

Wipe the screen lightly with a dry microfiber cloth. Sometimes that is all you need. Do NOT use any acid or alkaline cleaning liquids as this may damage the screen. It is always recommended to spray the microfiber cloth first, then clean the screen with the moistened cloth. Do NOT spray the monitor screen directly.

Step 1, Check your warranty. Most new computers come with at least a year of warranty. If your warranty is still active, contact the manufacturer to have it repaired for free or for a reduced price. Attempting the repair yourself will likely void the warranty. Step 2, Check the power indicator lights. If your monitor won't display an image, turn it on and watch the lights at the edge of the monitor. If one or more lights turn on, continue to the next step. If the lights won't light up, the ...
